PROFESSIONAL SUMMARY

BCA student (2027) at University of Lucknow (CGPA 8.40) with hands-on experience as an AI Intern and Software Development Intern, and 3 deployed full-stack applications. Proficient in Python, Django, React.js, REST APIs, and AI/ML integration; Hackathon Runner-Up (2026) for leading backend architecture on a production-grade AI platform. Seeking internship roles in Software Development, Python/Django, AI/ML, or Full Stack Engineering.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML5, CSS3

Backend: Django, FastAPI, REST APIs, JWT Authentication, PostgreSQL, MySQL, MongoDB, Supabase

Frontend: React.js, Next.js, Tailwind CSS

AI / ML: Machine Learning, Data Processing, LLM Integration, Generative AI

Tools: Git, GitHub, VS Code, Vercel

Core CS: Data Structures & Algorithms, OOP, DBMS, SDLC, Agile

WORK EXPERIENCE

AI Intern | iStudio Technologies | Jan 2026 – Present · 3 months (Remote)

- Build AI-powered Python applications integrating ML models and LLM-based workflows for real-world data processing.
- Design and develop intelligent features end-to-end — from problem scoping and model integration to deployment.

Software Development Intern | Prodigy InfoTech | Jun 2026 · 1 month (Remote)

- Delivered 5 projects including a Web Scraping Tool (Python, BeautifulSoup), Contact Management System (CRUD), and web apps using HTML/CSS/JS.
- Applied REST APIs, DOM manipulation, and Git/GitHub version control across all deliverables.

Web Development Trainee | Anayze Infotech | Summer 2025 (Lucknow)

- Built a full-stack Student Management System using React.js and REST APIs with user authentication and database integration.

PROJECTS

SheRoutes – AI-Powered Safe Navigation Platform – [she-routes-live.vercel.app](#) [Hackathon Runner-Up 2026]

Stack: Python, Django, React, Supabase, REST APIs, Leaflet

- Led backend architecture for an AI-driven women-safety platform using crime data analytics to surface optimized safe routes.
- Integrated real-time GPS tracking, SOS alerts, and Leaflet maps; deployed full stack on Vercel.

NagarNiti – Civic Issue Reporting Platform – [nagarniti-grid.vercel.app](#)

Stack: React, Next.js, Supabase, REST APIs, SQL

- Developed full-stack civic-tech app for urban issue reporting with role-based access, trust-driven validation, and real-time tracking.

Adrishya.AI – Anonymous AI Reporting System – [adrishya-ai.vercel.app](#)

Stack: React, TypeScript, Next.js, Supabase

- Built a privacy-first AI reporting platform with intelligent content moderation and emergency SOS functionality.

EDUCATION

Bachelor of Computer Applications (BCA) | University of Lucknow – Lal Bahadur Shastri Girls College

Sep 2024 – Jun 2027 | CGPA: 8.40 / 10 | SGPA Sem 3: 8.64 / 10

Higher Secondary Education | Saraswati Balika Vidya Mandir Rambagh, Basti

Intermediate (12th)

ACHIEVEMENTS

- Hackathon Runner-Up – TECHX26 2026: Secured 2nd place; led backend design for SheRoutes AI navigation platform.
- 4× Hackathon Competitor – consistently built and deployed working solutions within 24-hour constraints.
- Campus Mantri, GeeksforGeeks – selected to drive coding initiatives and technical community building on campus.

CERTIFICATIONS

Cisco (Python Essentials) • Microsoft (Generative AI) • Google Cloud (Gen AI Academy) • AWS (Solutions Architect) • J.P. Morgan (Software Engineering) • Infosys (Python for Data Science) • Tata (Data Analytics)
